

Mabrouk BEN TAHAR is Professor of Acoustic, vibroacoustic and aeroacoustic at Université de Technologie de Compiègne and Acoustic group of Laboratoire Roberval UMR UTC/CNRS N°7337. He received a master degree from la faculté des sciences de Tunis (1978) in applied mechanics, a doctorate in Structural Analysis by finite elements method (1981) form Université de Technologie de Compiègne and a doctorate ès-sciences in numerical method in aeroacoustics. He supervised twenty PhD theses. He has authored more than 40 papers in international peer-reviewed journals and more than 120 papers in international conferences. His main research concerns numerical approach in acoustic, aeroacoustics and vibroacoustic (MEF, BEM, coupled methods). He has been involved in several European and National projects.

He was responsible for the acoustic team between 2000 and 2017; member of Société Français d'Acoustique (SFA) and reviewer in international journals (JSV, Acta-Acoustica, JASA, ..)
